Senior User Experience Designer with over 8 years of experience creating complex, scalable products for enterprise SaaS and AI platforms. I focus on making complex workflows simpler through systems thinking, solid interaction design, and decisions based on data. I have led products from idea to growth stage while working with different teams to deliver effective, user-centered solutions.

Experience

Interaction Designer | Red Baron

Nov 2022 - Sep 2025

- Led end-to-end UX and UI design for a GenAI SaaS platform (Articul8), defining core workflows and interaction patterns to simplify complex AI capabilities for enterprise users.
- Designed and optimized the Articul8 marketing website, improving information hierarchy, clarity, and performance.
- Created branded, interactive SmartPages for Highspot clients, aligning visual design with business goals and brand guidelines.
- Delivered high-fidelity product visuals used across product, marketing, and client presentations, ensuring consistency and design quality.
- Designed end-to-end experiences for an interactive digital kiosk showcased at Mobile World Congress (Intel), focusing on intuitive interactions and on-site usability.
- Collaborated cross-functionally with Product, Engineering, and Marketing teams, supporting efficient design-to-development handoff using Locofy.
